| 20% | 20% | 20% | 20% | 40% | 40% | 40% | 20% |

**Forecast for Saturday 06 May 2023**

**Weather:** The morning period will be mainly dry with the chance of one or two passing showers, overnight low cloud will lift and break through the morning. The afternoon will see scattered heavy showers across the Trossachs, Argyll and southern Lochaber where they may become frequent for a time. More in the way of drier weather is likely across Arran, Kintyre and western parts of Argyll especially towards the coast.

**Chance of cloud-free hill tops above 800m:** 40% in the morning, 70% in the afternoon. The west coast will see the best chance of cloud free summits.

**Low Cloud and visibility:** Poor in areas of low cloud down to 300 to 600 metres at first. Cloud will lift and break through the morning with patches down to 800 to 1000 metres in the afternoon, this most extensive across the Trossachs and eastern Argyll where showers occur.

**Level above which ground is expected to be frozen/snow is expected to settle.*

**Met Office Aberdeen Meteorologist's View**
Feeling warm in the sunshine but feeling cold at height where cloud lingers. Note brisk winds on the highest tops.

**Forecast for Sunday 07 May 2023**
**Weather:** Chance of a few afternoon showers breaking out across Argyll, the Trossachs and southern Lochaber, otherwise it be largely dry with sunny spells.

**Maximum wind:** Southerly 15 mph

**Chance of cloud-free hill tops above 800m:** 70%

**Low Cloud and visibility:** Patchy cloud down to 300 to 600 metres at first, mostly across southern Argyll and the Trossachs. Otherwise patchy cloud at 900 metres or higher, although shrouding some of the higher Munro tops at times.

**Temperature:** **Glens:** Plus 8 rising to 18 Celsius
**At 800m:** Plus 8 Celsius
**Freezing level:** Above summits
